

This Stella was located  
on the east face of <sup>the</sup> ridge, near  
the top & on the north end of  
the ridge to the <sup>left</sup> right as one  
enters Daniel Canyon - <sup>up from Acorn Inn</sup>  
<sup>Said Cal Giles</sup>

The rock was 4" to 6" thick  
& stood about shoulder high.  
It was estimated to weigh  
700 to 1000# (estimate by Gary  
L. Sweat, who gave me <sup>RRG</sup> the picture)  
2-19-87

Aaron Daniels had a ranch  
at the mouth of Daniel Canyon

Alledgedly, William Bethers,  
and <sup>1123</sup> Beron did some <sup>see</sup>

prospecting in the Daniel  
Canyon area <sup>Beron & Bethers files</sup>
